

## Biome Project

Directions:

Build or draw a model of the biome of your choice. You may not choose the desert biome. Include plants and animals that live in that biome. Somewhere on your model, include the year round weather pattern of the biome. Also, include in your model the adaptations of the plants or animals that live there.

Choice #1

Example of a picture model: Paper may not be bigger than 12 x 18.

<p>Adaptations Plants: A cactus makes food from its stem. Animals: Many animals hunt at night</p>	<p>Desert Biome</p>	<p>Year Round weather pattern: Hot days and cool nights</p>
<p>student's drawing of the biome</p>		
<p>Name (first and last)</p>		

Choice #2

If you choose to build a biome, please do not use anything bigger than a shoebox. Write the weather pattern and adaptations on a piece of paper and place it on your model.

Grading:

Your biome models or pictures will be graded on accuracy, neatness, and level of detail. Make sure you include the year round weather pattern and adaptations of the plants and animals that live in the biome.

**The biome I chose to build is** \_\_\_\_\_.

**Project due on** \_\_\_\_\_.
